

State-of-the-art Aquaculture Technologies will be Showcased at Aquaculture Taiwan Expo this September at Taipei Nangang Exhibition Center

Aquaculture Taiwan Expo & Forum (Aquaculture Taiwan) is the first exhibition in Taiwan only focuses on innovative, eco-friendly, sustainable aquaculture technologies, which will be organised by UBM Asia Ltd., Taiwan branch and officially co-organised by Council of Agriculture of Taiwan Government. Aquaculture Taiwan will take place from 28th-30th of September 2017 at Taipei Nangang Exhibition Center, which will be held concurrently with Asia Agri-Tech Expo & Forum and Livestock Taiwan Expo & Forum.

Aquaculture Taiwan will welcome international brands from over 16 countries to showcase state-of-the-art aquaculture technologies, disease and cure screening equipment and test kits, water quality control measurements, feed and feed additive products and formula, automatic aquaculture equipment, smart aquaculture system and platform, seafood processing equipment, seafood, and many more.

An exhibitor from Canada will debut their professional bioreactors for aquaculture and biotech industry. The bioreactor is used to produce bio secure algae and rotifers on-site at aquaculture hatcheries. It can also be used to produce omega-3 oils and antioxidants in biotech. This bioreactor is fully automated, touchscreen controlled and self-cleaning.

Bioreactor presented by a Canadian exhibitor can be used for aquaculture and biotech industry

Another exhibitor will display their professional full line of water testing instruments including pH, ORP, Temp., RH, DO, TDS, Conductivity, Turbidity and Chlorine. 90 % of their products are exported to all over the world. Companies, such as Extech, Omega, Cole-Parmer, ATP, RS, ABB, etc., have been loyal customers with them for a long time.

Water quality control testing kit brought by an exhibitor of Aquaculture Taiwan

Other than advanced technologies and fancy smart equipment, series of thematic conferences given by top-notch speakers focus on “Asian aquaculture overview,” “How to utilise 21st century know-hows on traditional aquaculture industry,” etc., will also be laid out at the Expo.

Visitor pre-registration is now available online at <http://www.aquaculturetaiwan.com/en-us/>
